How well do you know the above candidate?

In what capacity?

The young person who has given you this form is applying to become an assistant program coordinator for the Christian Leadership Institute (CLI). CLI is weeklong program in which youth are taught leadership skills, which they can apply in their school or parish settings, home environment and communities. It is also an opportunity to build interpersonal relationships and enhance the faith-life of participants. A team of adult youth ministers facilitates the CLI experience with the assistance of a number of former candidates (APC's).

The ideal APC is a young person who possesses maturity, a spirit of teamwork, a healthy sense of self, an active and reflective Catholic faith life, the ability to dialogue about his/her concerns, a spirit of fun, a sense of humor, an attitude of service and a willingness to engage in hard work.

On the back of this sheet, (or on an additional sheet) please share your thoughts about the candidate, especially regarding the qualities listed above. Please do not hesitate to comment upon areas where this young person is in need of growth.
